

FIT3143 Lab Week 12 · Generative AI Declaration

This document records every use of generative AI while preparing the Week12 lab submission.

Purpose of AI Assistance

Task	Description of Assistance	Tool	Outcome
Design Plan & Code Refactoring	Used to summarise lab requirements, suggest a hybrid MPI/OpenMP design, and generate draft boilerplate code	ChatGPT (GPT-5 based)	Provided design guidance and boilerplate code, this was later reviewed and adapted, modified and understood manually.
Documentation	Assisted with providing clear and concise documentation that explained the code	ChatGPT (GPT-5 based)	Comments and documentation of the code was provided.

Compliance Statement

I acknowledge that:

1. Generative AI tools were used as documented above.
2. The final submission reflects my understanding and meets FIT3143 academic integrity requirements.
3. Any errors or omissions remain my responsibility.
